

WE REACHED AN AGREEMENT!

Our 83,000-member Union Coalition just reached a Tentative Agreement with Kaiser Permanente on a four-year contract that wins on all our bargaining goals and restores a true Labor Management Partnership. Our four-year Tentative Agreement:

1 Protects good, middle class jobs with . . .

- Strong across-the-board raises. 3% the first year, then each subsequent year will have a 2% raise and a 1% lump sum, with the opportunity to convert the lump sum to a regular raise.
- Protected healthcare benefits — including fully-paid family coverage and maintaining current copays for office visits and first-time or mail-order prescriptions
- Protected retiree medical benefits and improved pension
- No two-tier wages or benefits for new hires — all future Kaiser workers get the same wage rates and benefits as us

2 Completely bans subcontracting of jobs at our facilities and strengthens protections against outsourcing work

3 Waives the work experience requirement for any of us seeking promotion to a new position at Kaiser

4 And many other huge wins for our families and our patients....

We don't get it until we vote for it and ratify it.

Stay tuned for more information.
